SUMMARY

Final-year Energy Engineering student with hands-on experience in renewable energy systems, techno-economic analysis, and process efficiency improvement, gained through projects including a green hydrogen export feasibility study and a lean manufacturing efficiency initiative. Skilled in translating technical engineering concepts into practical, real-world solutions, with strong communication and leadership abilities. Strengthened by experience as Vice President of the AEE HTU Student Chapter, where I led cross-functional teams and built partnerships with industry and academic stakeholders. Recently recognised with a Gold Medal (1st Place) in an IAEA-affiliated Nuclear Science App Challenge across the Asia-Pacific region.

EDUCATION

B.Sc. Energy Engineering — Al Hussein Technical University (HTU), Amman, Jordan

2022 – 2027 (Expected)

GPA: 3.72 / 4.0

Aspire Institute Leaders Program — Powered by Harvard Business School (Remote)

Aug – Nov 2024

Certificate in Leadership & Entrepreneurship | 30+ hours of masterclasses | Competitive global cohort

LEADERSHIP EXPERIENCE

Association of Energy Engineers (AEE) – HTU Student Chapter

Vice President

Jan – Dec 2025

- Led AEE HTU to win the Career Catalyst Achievement Award at RENEW MENA 2025 (Cairo), competing against professional organisations; the chapter was named an official RENEW MENA Partner.
- Organised a high-profile panel on Jordan's 3rd National Energy Efficiency Action Plan with 5 top women energy leaders from the Ministry of Energy, EMRC, and NERC.
- Organised a 3-day 'Innovative Horizons in Solar Energy' workshop (VR/AR, CubeSat, industry visit to HANANIA Energy).
- Organized the BRACKa event in collaboration with the Royal Scientific Society and the office of industry partnership in HTU.

Social Media & Communications Designer

Apr 2024 – Jan 2025

- Built multi-platform content strategy (Instagram, LinkedIn, Facebook) that boosted event attendance and member engagement; contributed to internationally recognised newsletter award.

PROJECTS

Autonomous Planetary Rover Prototype — Capstone Graduation Project, HTU

Feb 2026 – Jan 2027 (Expected)

- Designing the rover's power system as part of a multidisciplinary team across Mechanical, Electrical, Software, and Power divisions, for a full-scale rover competing in the European Rover Challenge (ERC).

Green Hydrogen Techno-Economic Study — Energy Engineering, HTU

Fall 2025 – 2026

- Modeled a 50 MW green hydrogen production pilot in Aqaba, confirming cost-competitive export feasibility to the European market through detailed techno-economic and CAPEX/OPEX analysis.

ACHIEVEMENTS & AWARDS

- Career Catalyst Achievement Award — 3rd RENEW MENA Conference, Cairo 2025
- Outstanding Leadership Performance Award — AEE Amman Chapter (REES), 2025
- Best International Student Chapter Newsletter — AEE Global Awards, 2025
- Gold Medal, 1st Place — Myth Smashers Nuclear Science App Challenge (IAEA/ANENT), Asia-Pacific region, 2026

VOLUNTEERING

RCOY MENA — Regional Youth Conference 2024

Sep 2024

- Co-organized the Regional Conference of Youth (RCOY MENA) on behalf of HTU, engaging youth delegates from across the MENA region on climate resilience, security, and action in conflict-affected communities.

Ma'an Volunteering Team

2023 – 2024

- Contributed original ideas that helped shape the team's volunteering initiatives.

Children's Museum Jordan

2023 – 2024

- Guided parents and children through museum activities based on the daily schedule and welcomed visiting families.

SKILLS

Soft Skills: Leadership • Event Management • Technical Communication • Commitment • Time Management

Technical Skills: PVsyst • HOMER • MATLAB • NI Multisim • SketchUp • DIgSILENT • PowerWorld • RETScreen

LANGUAGES

Arabic (Native) • English (Professional)
